Re: 1033 Fire Investigation Course Leduc 10-14 Sept 2018

Dear Glen,

I wanted to take the opportunity to commend you and your staff for an exceptional course offering, the 1033 Fire Investigation program facilitated in Leduc County September 10-14, 2018. I found the manner and style your organization facilitated the theory and practical training components of this program to be extremely refreshing, engaging and the experience demonstrated by you and the instructors was remarkable. The structured format of the on-line pre-course work even further enhanced my learning experience.

I typically leave my final course comments to the course evaluation form, although I was so impressed with the entire course process FireWise facilitated, I felt compelled to pen this letter as a means of communicating to you how well thought out your course delivery and final training product was.

My career has spanned nearly 31 years and I can with certainty state your fire investigation course is one of the best training experiences I have incurred during my career. Even with my extensive background and experience, I felt completely engage throughout the fire investigation course learning new information and material, a very exciting opportunity.

In closing, I would thank you for an incredible training experience, I intend to ensure members of my regional emergency services can attend future offerings of your 1033 fire investigation training program facilitated in Leduc County.

Thank you
Respectfully,
