Abbotsford Police Department
Major Crime Unit

Join us at this four-day workshop to discover the proper methodology in conducting a fire death investigation, who dies in fires and why, the effects fire has on the human body, different types of fire death incidents and learn from real life cases.

Date: Fall 2020

Time: 9:00 AM – 4:30 PM

Where: Edmonton Police Service Training Center
New facility opening in 2020

Registration open January 2020

Presented in partnership with the Edmonton Police Service, this is an exclusive opportunity to learn from two highly experienced investigators with unique qualifications that co-authored the “Fire Death Scene Investigation Field Guide”. During this informative workshop, Ed Nordskog and Joe Konefal will share decades of first-hand experiences and knowledge to help you become a better investigator more equipped to handle the difficult task of a fire death investigation.
